

Odd/Even Water Use Restrictions

August 20, 2025

By order of the Rye Water District Commissioners, water system customers are to comply with an odd/even irrigation schedule.

The water district commissioners voted today to implement odd/even restrictions on irrigation systems. **Customers with odd-numbered street addresses can irrigate from midnight until 8:00 am on odd-numbered days, while even-numbered addresses can water on even days.**

The Seacoast is in a “moderate drought,” and the area has received just 2.6 inches of precipitation since the end of May. This is 6.4 inches below normal for the last ten weeks. This, coupled with hot and dry weather, has increased customer water demand. Thus, the need for restrictions.

Please refer to our website for additional information on restrictions and other updates.
