

Water Treatment/Distribution Operations Specialist

Full- Time: 40 Hours + Overtime (as needed)

Shift: Days (Monday - Friday 8 am-4:30 pm, with rotating on-call duty on weekend and evening)

Location: Dolton, SD

Salary Range: \$18 - \$30 an hour (\$37,400.00 - \$62,400.00 Annually), based on construction/mechanical experience and drinking water certifications.

Overview

TM Rural Water District is looking for an enthusiastic and hardworking individual to join our team as a Water Treatment/Distribution Operations Specialist. **No experience in the water utility field? No problem, we provide the training required to get you the certifications you need.**

TM Rural Water District is a water utility serving over 1600 rural homes, farms, and seven towns in Turner & McCook Counties. The Water District maintains over 900 miles of water lines, four wells, four water towers, 3 booster stations and a 4 million gallon per day water treatment facility located outside of Dolton, SD. Our job is to provide a safe, continuous, high-quality source of drinking water to our customers.

TM Rural Water District offers year-round employment, advancement opportunities, competitive pay and excellent benefits including Health, Life, Dental, Vision, Paid Vacation, Sick Time, Savings Plan, and a Defined Benefit Retirement Plan.

If you are looking for long-term, local employment with great pay and benefits, look no further than TM Rural Water District. If interested, please call (605) 297-3334 for an application or email your resume to Jay at tmrwd@iw.net.

Principle Duties & Responsibilities

With general supervision, our ideal entry level applicant would receive training to perform duties that range from general to skilled; to include the construction, maintenance, and repair of the TM Rural Water treatment and distribution system and resolution of customer service-related issues.

Qualifications

Entry Level Job Requirements

- High School Diploma/GED
- Clean Driving Record
- Be able to lift at least 50 lbs periodically
- Be able work in unstable soil and trench conditions
- Preferred but not required water utility experience
- Ability to obtain a Class I or higher Water Treatment & Distribution Certification within 18 months of hire (training provided and paid for by the District)
- Preference given to applicants that live within the District's Boundaries
